Dear Planning Komité

meet Marvie Harvats plans in Stengjorden.

By legge min en protest
 The building on the original
 plan was too big, if you took the cars for scale, it
 will cover alot of the field, inemically, the
 prettreat part, that both visitors and residents
 are attracted to.

They will dump their waste into
 the surrounding area, how the "nature for"
 marine life will be affected is a gamble but
 once it is, the situation cannot be undone.
 It might be good to look at their performan
 in Clester Canada and Thailand (Poon Jannung)
 the well has some interesting articles.

Yours Faithfully
 Mary Kutter
